Special Steel Group Sheffield – England

Press Release

The Special Steel Group, whose headquarters are in Sheffield, England. Are pleased to announce the purchase of Hillfoot Steel Forge, from the Murray Metals Group, based in Scotland.

The Purchase of the Forge now adds 'Hot Working' to the group's extensive sub contract capabilities, and will compliment the Heat Treatment plant.

With the added advantage of a fully approved material testing facility, and in house CNC machine shop, the purchase also creates a total capability required for the worldwide supply of nickel based Super Alloys and Special Steels, through our subsidiaries Special Quality Alloys based in Sheffield England and Houston Texas.

It is our intention to invest in the Forge with the latest 'state of the art' equipment, to ensure the very finest product can continue to be manufactured.

With a wealth of knowledge gained in the steel industry over the last eighty three years, and employing the finest metallurgists and senior management available today, plus a dedicated workforce, all operating from the best equipped plants in South Yorkshire and Texas, it is our intention to be a leading player in the industry for generations to come.

The name of the Forge will change with immediate effect to 'Special Forged Products Ltd.' to reflect our group identity.

Alan K. Beardshaw
Group Chairman
